

How to download the NBM tool

We hope the following steps will help you access the file:

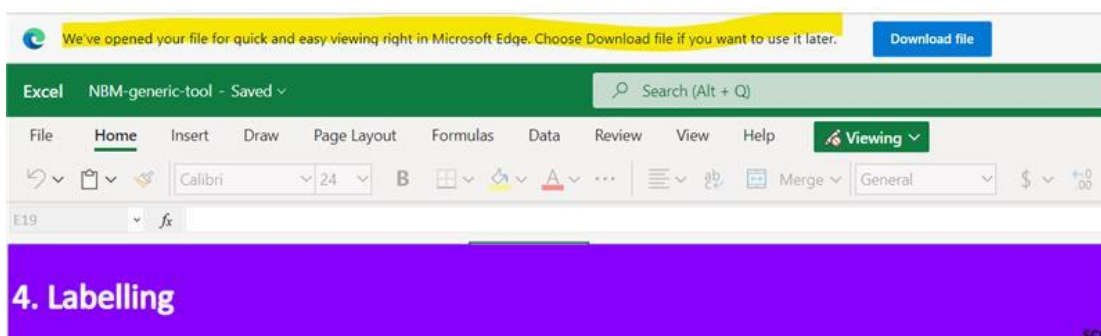

1. Access the project page: <https://accesstonutrition.org/nbm-toolkit/>
2. Click on the Download NBM Tool

3. Locate the file
 - If you use Google Chrome the file should be saved into your "Downloads" folder:

- On Microsoft Edge you should get the following. You need to press again on the "Download" button to be able to view the file

4. Labelling

4. Open the file and enable editing by clicking on "**Enable Editing**"

- This step is important. Depending on your security settings, the file might be blocked. Once you have clicked on "Enable Editing" you can start entering your responses.

Introduction

To support SMEs in the fight against malnutrition, ATNI initiated a 3-year project in April 2019 (ending March 2022), to design a voluntary self-assessment tool for SMEs called the Nutrition Business Monitor (NBM) in partnership with

The tool should now work. If you are still having issues, kindly share the Excel version you are using, and we will provide further assistance.
