How to download the NBM tool

We hope the following steps will help you access the file:

1. Access the project page: [https://accessstonutrition.org/nbm-toolkit/](https://accessstonutrition.org/nbm-toolkit/)

2. Click on the Download NBM Tool

   ![Download the tool](image)

   Please click on the link below to download an open-access generic version of the tool. The tool is open to everyone that wishes to test it and see how their company performs in terms of nutrition.

   ![NBM tool](image)

3. Locate the file
   - If you use Google Chrome the file should be saved into your "Downloads" folder:

   ![Downloads folder](image)

   - On Microsoft Edge you should get the following. You need to press again on the "Download" button to be able to view the file

   ![Microsoft Edge](image)

4. Labelling
4. Open the file and enable editing by clicking on "Enable Editing"

   - This step is important. Depending on your security settings, the file might be blocked. Once you have clicked on "Enable Editing" you can start entering your responses.

**Introduction**

To support SMEs in the fight against malnutrition, ATNI initiated a 3-year project in April 2019 (ending March 2022), to design and develop a new assessment tool for SMEs called the Nutrition Action Monitoring (NAM) in partnership with the...

The tool should now work. If you are still having issues, kindly share the Excel version you are using, and we will provide further assistance.
