

Job Title	Management Assistant at a dynamic international organization working to draw on the power of the private sector to address the global nutrition crisis.
Work Location	Utrecht, The Netherlands. Currently, the ATNI team is working partly from the office and partly remotely.

Organization and overall purpose

The Access to Nutrition Initiative is an independent, not-for-profit organization based in the Netherlands since 2013. We publish consistent, standardized analysis and commentary on food and beverage manufacturers' efforts to improve consumers' access to nutritious foods and beverages, both globally and in Spotlight countries.

Every country in the world is affected by malnutrition with 88% of countries facing overlapping burdens. Globally one in three people are either undernourished, overweight or obese. Over the last 35 years, obesity has more than doubled and has now reached epidemic proportions. Over the next 10 years, undernutrition is also set to continue to increase in some countries.

Our vision is a world where:

- No one goes to bed hungry.
- Everyone eats a healthy, affordable diet that has the nutrients they need to grow and develop fully.
- Deaths and illnesses from diets low in essential vitamins and minerals are confined to history.

Our aim is to drive change by tracking and driving the food industry's attempts to tackle obesity, diet-related chronic diseases and undernutrition at the local and global levels. We design and deliver a range of private sector accountability tools, using our own research, experience and the knowledge of our growing global stakeholder network. Every action we take is intended to encourage businesses to do more to achieve good health through improved diets and nutrition.

We pride ourselves on being innovative and collaborative and are increasingly working on new accountability tools and embarking on other bespoke research, establishing new partnerships with investors, not-for-profits and foundations.

Our work and the role as Management Assistant

ATNI publishes the Global Index, country Spotlight Indexes and other tools and initiatives. ATNI's products provide companies with a tool to benchmark their performance on nutrition against others in their sector and provide stakeholders with impartial objective, consistent, in-depth information on companies' contributions to improving nutrition. The aim of ATNI is to encourage companies both to increase the number of healthier products and access to them, and also to responsibly exercise their influence on consumers' choice and behavior.

The first Global Index, assessing the largest global food & beverage manufacturers worldwide, was launched in 2013 and subsequent Global Indexes in 2016 and 2018. They gained a positive response from stakeholders, including food and beverage manufacturers, NGOs and investors. The Global Index is published approximately every two years. In July 2021, the fourth Global Index was launched. In addition, ATNI publishes country Indexes and tools (Spotlight Indexes) for individual countries that aim to provide a strong evidence base for local dialogue and action. The first India Spotlight Index assessing India's largest food and beverage manufacturers was published in 2016 and the second in 2020. Similarly, the first U.S. Spotlight Index focusing on the United States was published in 2018 and the second will be published this year (2022). Other projects being conducted by ATNI and its implementing partners can be found on the [Projects section of the website](#). ATNI has an active [Twitter account](#) and is boosting its presence on [LinkedIn](#).

The Management Assistant will be part of a dynamic international organization, with a growing team based in Utrecht, the Netherlands. You will report directly to the Executive Director and support the Management Team and the ATNI Board.

The successful candidate needs to have several years of experience in a similar position and be comfortable working in a high-paced environment with frequently changing/evolving tasks and goals. Outstanding attention to detail and excellent communication skills are as critical as building effective relationships with other team members.

Duties and responsibilities

Calendar management

- Proactive calendar management, handling a busy schedule for the Executive Director and Management Team, including international travel.
